

Web AppBuilder for ArcGIS: Build your first widget in 15 minutes

Gavin Rehkemper

twitter.com/gavinrehkemper

github.com/gavinr

“BUILD”

What does that mean?

1. Generate a boilerplate
2. Create widget front-end
3. Create widget builder configuration

- Text Editor
- JS Linting and Formatting

The background is a vibrant blue gradient. On the left side, there is a complex geometric pattern of overlapping triangles in shades of purple, teal, and yellow. A yellow triangle in the lower-left quadrant contains a faint, light-colored map of the state of Indiana.

Developing

- Sample Widgets
- Widget Generators

Demo

Show me the code

Next Step: Deploying Your Widget

- See "Web AppBuilder deployment patterns" talk
 - Wednesday, 5:30 pm, Demo Theater 8
 - Thursday, 12:30 pm, Demo Theater 8
